Make a **QUILT BLOCK** for hope & peace!

We have been wrapping quilts around those in need for over two years...
NOW we are ALSO collaborating with the #sunflowerquiltforukraine International project to literally wrap the world in the colors of hope!

What is it?

- A contemporary art quilt installation bound for **Kiev, Ukraine's main street in 2025**.
- A powerful collaboration and statement of hand stitched art that flies in the face of a war-torn landscape.
- A united force of quilters and artists from Australia, Europe, Ukraine, and the U.S.
- All blocks from US quilters will be made into quilts at the end of the art project and will be donated to those in need through Wrap the World With Quilts.
- Wrap the World With Quilts is the organizer of the quilt blocks from the U.S.

Why do it?

- To show the world that Ukrainians are brave and full of hope for peace as they try to survive the war and the cold and go about the hardships of their daily lives.
- To join with the many Ukrainians that are also stitching patches, making art as an act of caring, therapy, love, protest, and resilience.
- To continue **OUR VISION** of helping those in need through the comfort of a quilt.

HOW can you help?

Please join other U.S. & international quilters in making blocks!

- Use bright, happy, colorful, fabrics "colors of hope"
- The theme is sunflowers, hope, love, peace. Use the sunflower motif if you wish!
- Blocks should measure **12.5" square**, unfinished
- Blocks can be pieced, appliquéd, or embroidered...get creative!
- We will assemble the blocks into display quilts, and then when the art installation has ended, they will become quilts donated to those in need.
- **Consider sending \$1 with your block** to help with int'l shipping. Thank you!
